

Professional Summary:

Detail - oriented aspiring Data Analyst with hands - on experience in SQL, Excel, Power BI and Python through self - driven projects. Skilled in data cleaning, dashboard creation, and business insights generation. Strong analytical and problem – solving abilities with an interest in business intelligence and data - driven decision - making.

Skills Section:

Technical skills:

- **SQL** – Joins, Aggregations, Subqueries, Window Functions
- **Power BI** – DAX, Data Modelling, Dashboard Dev
- **Python** – Pandas, Matplotlib, NumPY
- **Microsoft Excel** – Pivot Table, Power Query, VLOOKUP, INDEX – MATCH

Analytical Skills:

- Data Visualization
- Statistical Analysis
- ETL
- Data modelling
- KPI Reporting

Tools:

- **SSMS** (SQL Server Management Server)
- **Power BI Desktop**
- **VS Code**
- **Jupyter Notebook**

Projects:

Credit Card Fraud Analysis Dashboard

Tools: Power BI (DAX, Data Modeling), SQL, Excel

- Analyzed **284K+ transactions** using SQL for data cleaning, aggregation, and transformation.
- Built an interactive **Power BI dashboard** to track KPIs including **fraud rate (0.17%)**, transaction volume, and average transaction value.
- Developed DAX measures for **fraud %**, **cumulative trends**, and **risk segmentation by transaction amount**.
- Identified key fraud patterns, including **higher fraud frequency in low-value transactions (\$0–10)** and peak activity during specific hours.

Designed visualizations to effectively highlight **class imbalance** and **fraud behavior trends**.

Used Car Market Analysis Dashboard

Tools: Power BI (DAX, Data Modeling), SQL, Excel

- Consolidated and analyzed **14K+ car listings** from multiple datasets using SQL and Excel for preprocessing.
- Built a **Power BI dashboard** to monitor KPIs such as **average price (₹7.47L)**, **median price (₹4.5L)**, and **average kilometers driven**.
- Performed **time-series analysis (2000–2022)** to identify pricing and listing trends.
- Analyzed **price distribution**, revealing demand concentration in the **₹2–5 lakh segment**.
- Evaluated **fuel type and transmission trends**, identifying dominance of petrol/diesel vehicles and **manual transmission (~83%)**.
- Delivered insights to support **pricing strategy and market trend analysis**.

Certification:

Deloitte Australia Data Analytics Job Simulation on Forage – May 10, 2026 ([Certificate](#))

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions

Education:

B.A (Bachelor of Arts) | Swami Vivekanand Subharti University, U.P | Graduated March 2026

Additional Information:

- Completed multiple end-to-end data projects using real-world datasets in **SQL**, **Excel**, and **Power BI**
- Actively practicing **SQL** problem-solving on HackerRank and LeetCode to sharpen query optimization and analytical skills.
- Strong interest in **Business Intelligence**, **data visualization**, and translating data into meaningful business decisions.
- Languages: English (Fluent), Hindi (Native).
